## Town Officers OSSIPEE New Hampshire

For the fiscal year ending  
December 31, 1951

The cover on this year's Town Report shows one of Ossipee's tractors pushing back the snow banks on the Grant Hill road, as it moves from one plowing job to another. Snow removal is an item of major expense in all New Hampshire towns and a fruitful source for argument as to how it can be done economically and quickly.

## STATISTICS PERTAINING TO THE LAKES REGION

The Lakes Region is the most important of the six New Hampshire Regions with respect to the recreation business.

This is shown by the division of assessed values of recreational property, by Regions, from a survey made by the State Planning and Development Commission.

Lakes Region 32%  
Monadnock Region 14%  
Seacoast Region 14%  
White Mountain Region 18%  
Dartmouth-Lake Sunapee Region 12%  
Merrimac Valley Region 10%

The valuation of recreational property in the Lakes Region is 15 million dollars, compared to the total of 50 million in the state. In addition to which the valuation of Summer Homes in the Lakes Region is 12 million dollars, which is one-third of the state total.

Almost one-half of the Boys and Girls camps in New Hampshire are in the Lakes Region, this refers to 70 camps in the Region with a valuation of \$750,000.00.

There are 6,000 motor boats, registered in the Lakes Region, which is more than  $\frac{1}{2}$  of all boats in New Hampshire.

The gross income to the Lakes Region from the recreational business is thirty million dollars.

Recreation is the principal industry in the Lakes Region, although we are strong industrially with 15% of the population of the State our manufacturers

produce 15% of the valuation of manufactured goods.

The Lakes Region comprises three cities and thirty-nine towns, with a population of 71,887 and assessed valuation of \$112,900,000.00.

The Lakes Region Association was organized in 1936 to promote the growth and prosperity of the Region in every way possible.

During these fourteen years we have published and distributed more than a million booklets and folders, throughout the Eastern part of the country, and in many other states. In addition to which we have distributed thousands of local books and folders.

We sponsor each year the 4-H Fair at the Belknap Recreational Area and distributed \$500.00 in cash prizes to the contestants.

We conduct an annual Photo Contest and distribute cash prizes for the best pictures submitted. This project not only attracts many out of state people to our Region, but it gives us splendid pictures for our publications.

We are in constant cooperation with the New England Council, the State Planning & Development Commission, and many travel agencies.

When the Lakes Region Association was formed the Recreation business in the Region was determined by the State as sixteen million dollars, it now is thirty million dollars.

During the years we have been instrumental in attracting several new manufacturers to the Region.

We have assisted several of our towns in solving their problems and are anxious to help any town at any time.

The people of the state recognize by their votes that they approve the Regional setup, as 85% of all of the towns make appropriations to their Association annually and for the last three years every town in the Monadnock Region and all but two towns in the Mountain Region made their appropriation.

Being principally a recreational and residential Region it is interesting to note according to a national survey made by the Curtis Publishing Company that over eight billion dollars is spent each year for Recreation. Which sum is divided as follows:

- 44% for Hotels, Motor Courts & Restaurants
- 24% for Transportation and gasoline
- 22% for Retail Stores
- 10% for amusements, sports and miscellaneous purposes.

also that in 1949 approximately nine million dollars was spent for advertising and publicity by the several states.

All organizations in New Hampshire spent approximately \$175,000.00.

If we are to continue to get our share of the business, which benefits every citizen we must continue to publicize the Region.

Every town has much to gain by cooperation with the Lakes Region Association, which is endorsed by the State and the Governor.

The Lakes Region Association has been able to secure a few new small industries but have lost several large ones owing to the fact that desirable space was not available. If all towns that have vacant space will notify the executive secretary giving full particulars we might be able to find an occupant.

The executive secretary has attended many meetings in the state and New England and has distributed booklets and folders to sportsman shows in Boston, New York and at expositions throughout New England. He has answered thousands of inquiries on all subjects and has distributed to real estate dealers many inquiries that have resulted in bringing to the region thousands of dollars of new assessed valuation.

We ask that our towns call on the Lakes Region Association for assistance at any time.

## REPORT OF THE FOREST FIRE WARDENS

In the past year your local forest fire organization did a very fine job of pre-suppression and suppression of forest fires. Our early spring was very dry and with extra high winds and all our fires were during that period. We find that the general public is still very careless with matches and cigarettes.

In the "Keep America Green" program there is a story of two bad boys who cause most of our forest fires. The first one we call, "I don't care," he is the person that builds fires anywhere, never gets a permit to burn brush or has a safe place for his home incinerator. He is also very careless with matches and cigarettes. The other one is called, "I don't know any better," and the best way to describe him is a plain dunce. It is only with your help that these two bad actors are controlled. Their carelessness can be the cause of our pretty and valuable woodland to be destroyed by fire. Even your own home can be burned by them.

It is up to you and you alone to report these two characters to your local forest fire warden whenever you see them operating. To have our woodlands green and our mountain streams clear, your cooperation is needed by:

1. Seeing that your incinerator is tight and is sitting on clean ground.
2. Always clean a space about any open fire to prevent it from spreading.
3. Never burn in dry windy weather.
4. In all cases a written permit is required from your local town fire warden.

5. Be sure that your matches, cigarettes and pipe ashes are out before discarding.

It is with your cooperation that this shameful waste of timber and money can be stopped.

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

To The School Board and Citizens of Ossipee:

For the year 1950-51 teachers in the Ossipee Central School were as follows: Principal Mr. George Colby; Grade 8, Mr. Richard Ladd (Mr. Ladd entered the armed forces at mid-year and was succeeded by Mrs. Grethel May); Grade 7, Mrs. Dorothy Webb; Grade 6, Mrs. Mabelle Stevens; Grade 5, Mrs. Edna Kennard; Grade 4, Mrs. Florence Eldridge; Grade 3, Mrs. Leda Knapp; Grade 2, Mrs. Lillian Godfrey; Grade 1, Mrs. Alice Loud.

Ossipee High School was closed by order of the Superior Court and with funds borrowed by authority of the annual school district meeting two large school busses were bought to transport high school pupils to Conway. Transportation was furnished for the regular school sessions, after-school session for those remaining for make-up work or for activities, and for the major evening events. The transportation for late afternoon and evening permits pupils to participate in the activities of the school. Without this the great majority of pupils would find it impossible to obtain the benefits of an important part of the advantages offered by the school. The busses, operated by Lawrence Haney and Wesley Eldridge, transported 55 Ossipee pupils and 25 Madison pupils. Ossipee received an income from Madison of \$1800.00. Total cost of high school transportation was \$4,451.19. Subtracting the income from Madison gives a net cost of \$2,651.19. Total average cost of operation of the large busses was 13½ cents per mile.

Ossipee pupils, at Kennett for the first year, made a very creditable achievement. Several were consistently on the honor roll, were elected to class and

school offices, and were prominent in athletics, dramatics and other school activities. Of the 63 pupils enrolled in all schools only three left school. Last May the Ossipee Rotary Club sent two pupils from this supervisory Union to the Model United Nations Session held at Plymouth Teachers' College. Miss Patricia Loring represented Kennett High School, and Mr. Gerald Wentworth of Union, a senior at Spaulding High School represented that school.

With the closing of the high school one room was added to the building and all elementary pupils were moved into the central school. The elementary school was completely reorganized with one grade to a room. The new room, occupied by the first grade, is a model of modern school architecture. All equipment and installations are scaled to the size of pupils of that grade. Desks and chairs are movable and permit flexibility of arrangement. The chalk board is green and the finish is in pastel colors.

The basement room formerly occupied by grade one is being converted into two rooms. One room will be a shop and is now being used for shop classes. The second room will be used for a dental clinic and has now installed a dental chair, a dental operating unit, a special lighting fixture, a sink, and hot and cold water. The partition separating the two rooms was a shop class project. Mrs. Marion Davis, R. N., the school nurse has arranged for services of a dentist. The dental unit was obtained at no cost from the armed forces. The Women's Club has contributed \$100.00 toward its transportation and installation.

In the class rooms with one grade to a teacher there has been a great improvement in instruction. The largest number of pupils in one room during the current year is 28. To some degree departmentali-

zation has been organized in the four upper grades. This year the science of grades 5, 6, and 8 are taught by Mr. Belisle who also teaches arithmetic in grades 6 and 8. Mrs. May teaches the history of grades 6, 7, and 8. Mrs. Webb teaches music, art, and current events in grades 7 and 8. Miss Eldridge teaches music in grades 5 and 6. This permits the teachers to devote more time to their special fields. The pupils gain because of this and they also have experience in meeting with several teachers as they will in high school. An excellent program of activities of a wide variety was carried on under the direction of various teachers. Both boys' and girls' basketball teams played a schedule with neighboring schools. The boys' basketball team played a schedule during the spring. The Operetta, "The Frog Prince," and an evening of one-act plays were presented. A band was formed which now boasts about 30 members under the direction of Mr. Raymond Davis. Miss Elizabeth Durell assisted with the operetta.

The principal teaches two classes of shop for boys, coaches the boys' athletics, directs the physical education program, manages the school lunch and the attendant accounting, arranges the visual aid program, supervises the testing program, and does all administrative work.

Costs of education in 1950-51 were as follows:

	Ossipee	State Average
Current Cost per elementary pupil	\$183.40	\$179.93
Current Cost per elementary pupil less transportation	150.84	161.94
Current Cost per high school pupil	228.52	280.95
School tax rate per \$1000.00 equalization valuation	19.88	18.71

Current 62 pupils from Ossipee are enrolled in high school. Tuition rates for 1951-52 are \$200.00 at Kennett High School and \$209.00 at Spaulding High School. Conway has announced a tuition rate of \$245.00 for next year. Estimated high school enrollment for next year is 69 pupils. This number will increase in three years to about 80 and in 8 years to over 100. This number of high school pupils will mean an expenditure approaching \$30,000.00 a year at present rates. Although this is some distance in the future it will present a financial problem that should not be postponed to such a time that a hasty solution is necessary.

The interest and cooperation of the school board, teachers, citizens and pupils in our problems of education are sincerely appreciated.

Respectfully submitted,

EVERETT H. BRASIER
